

## [Genesis 2000](#)

By Ysatis De Saint Simon

**Genesis 2000 - The Forbidden Initiatic Version** is based on The Hebrew Tongue Restored, the monumental reconstruction of the original Hebrew Language to its original purity by the French scholar, Fabre d'Olivet - the language in which Moses wrote the book of Genesis - a language lost six hundred years before Christ; and without the Understanding of which no one can know what Moses wrote. **Genesis 2000** is a profound spiritual-scientific text offering a Unified Field for Science and Religion, containing information that has never before been published - and for good reason - the segment known by most people as Genesis found in the vulgarly known Bible of today is an altered version

of Genesis as Moses Wrote It, very, very far from being an exact translation of Moses' Book of Genesis, which is quite scientific! Regarding this problem and knowing that the knowledge revealed by his reconstruction of the Hebrew language would clash with widely accepted religious errors and prejudices, Fabre D'Olivet wrote, *'in choosing to restore the Hebraic tongue to its original form, I have not been ignorant of any of the difficulties, nor any of the dangers awaiting me. But if one had to listen always to those pusillanimous considerations, what things would ever be perfected? Many men have, at different times and among different peoples, possessed the understanding of the Sepher in the way that I possess it; but some have prudently concealed this knowledge whom divulgence would have been dangerous at that time, while others have enveloped it with veils so thick as to be attacked with difficulty.'* Fabre d'Olivet, The Hebrew Tongue Restored.

Maimonides, Jewish Rabbi, savant and philosopher of the 13th century, said, *'Taken to the letter, 'Genesis' gives the most absurd and extravagant account of the creation and of divinity. Whoever shall know the true sense of it ought to take care not to divulge it. This is an advice that all our sages repeat to us, above all in what concerns the work of the six days. If a person should discover the true meaning of it, he ought to speak of it obscurely, in an enigmatic manner as I do myself; leaving the truth to be guessed by those who can understand me.'* Maimonides, More Nevochovim, Parch. II Cap. xxix.

What is the secret that has been so carefully guarded throughout the ages?

Do you want to know? Do you want to know the Truth?

If you are just a scientist or just a human being driven by a holy curiosity to find the answers to questions about God, Creation, the Sense of Being, about your Origin and Final Destiny, or if you feel stumped in your growth and in your investigations by age old accepted errors, **Genesis 2000** will indeed be of great interest to you, regardless of race or creed!
